NEWS RELEASE

third quarter of 2013, representing a robust year over year growth of 21.7% and a sequential growth of 0.4%. Total revenue including Wuhan wafer shipments declined 1.3% sequentially as we exit our relationship with Wuhan Xinxin. I'm also pleased that we made \$42.5 million in profit attributable to SMIC, which is our sixth consecutive quarter of positive profit.

I am happy to announce that 40nm wafer revenue grew 50.3% sequentially to 15.7% of total wafer revenue. (n)Tj 5 0 Td (e)Tj 5 0 Td (d)Tj 5.25 0 Td (u)5.25 0 Td (%)Tj 8.2.)Tj 2.75 0 Td r

About Non-Generally Accepted Accounting Principles (“Non-GAAP”) Financial Measures

To supplement SMIC’s consolidated financial results presented in accordance with IFRS, SMIC uses in this press release measures of operating results that are adjusted to exclude wafer shipments from Wuhan Xinxin Semiconductor Manufacturing Corporation (“Wuhan Xinxin”), which SMIC began gradually phasing out in 3Q13. This earnings release includes non-GAAP revenue, non-GAAP cost of sales and non-GAAP gross margin. It also includes fourth quarter 2013 guidance for non-GAAP revenues and non-GAAP gross margin, which exclude such shipments, and for non-GAAP operating expenses, which is adjusted to exclude the effect of foreign exchange, employee bonus accrual, funding of R&D contracts from the government and gain from the disposal of living quarters. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS.

SMIC believes that use of these non-GAAP financial measures facilitates investors’ and management’s comparisons to SMIC’s historical performance. The Company’s management regularly uses these non-GAAP financial measures to understand, manage and evaluate the Company’s business and make financial and operational decisions.

The accompanying table has more information and reconciliations of each non-GAAP financial measure to its most directly comparable GAAP financial measure. A reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available on a forward-looking basis.

Other operating expense (income)	(8,159)	(33,052)	-75.3%	473	-

R&D expenses increased to \$37.6 million in 3Q13, compared to \$36.7 million in 2Q13. The increase was primarily due to an \$6.8 million increase in R&D expenses associated with higher R&D activities from quarter to quarter, partially offset by a \$6.0 million increase in funding of R&D contracts from the government, which was \$9.0 million in 3Q13, compared to \$3.0 million in 2Q13.

General and administrative expenses decreased to \$24.7 million in 3Q13, down 42.0% QoQ from \$42.6 million in 2Q13, mainly due to a decrease of employee bonus accrual in 3Q13.

Other operating income was \$8.2 million in 3Q13, compared to \$33.1 million in 2Q13, and consisted mainly of the gain arising from the disposal of part of the Company-owned living quarters in Shanghai. This 75.3% decrease from 2Q13 was mainly due to a one-time gain recorded in 2Q13 arising from the disposal of the Company's total ownership interest in SMIC (Wuhan) Development Corporation.

Capex Summary

Capital expenditures for 3Q13 were \$169.3 million.

The planned 2013 capital expenditure for our foundry operation is \$675 million.

The 2013 planned capital expenditure does not account for additional expenditures for the joint venture company in Beijing, which was established in July 2013. The joint venture company will principally engage in, among other things, the testing, development, design, manufacturing, packaging and sale of integrated circuits.

In addition, we have budgeted capital expenditures of another \$130 million in 2013 for the construction of living quarters for employees as part of the Company's employee retention program. We plan to either rent out or sell these living quarter units to employees in the future.
